Pricing Is Important – Coverage is Equally Important:

Buying insurance is not just securing the lowest price it is a business of financial protection. The main objective of your insurance professional is to know the exposures and make certain you have coverage so you protect your assets. And also to have competitive pricing.

Policy Review: *Looking for any gaps in coverage, making certain sufficient coverage is in place (Correct Limits and Correct Coverage's) and determining if there are old coverage's that may no longer be needed. Determining any new exposures that may not be addressed in your current policy.*

Marketing Your Policy : *Marketing your policy to a number of insurance companies that we represent in order to secure competitive pricing. We represent 29 insurance companies. A number of those companies are restaurant oriented. Not all insurance agencies are the same: Some represent very few insurance companies and therefore cannot market your policies as aggressively. A few insurance companies we represent are: Selective, Travelers, Cumberland, Harleysville and many others. We also work with RCA and other restaurant programs.*

Insurance Coverage's Available: *Just to touch on a few- Property Coverage's, General Liability, Workers Compensation, Mechanical Breakdown, Employment Practices Liability, Business Auto.*

Also available if desired:
